Educated tourism professional with love of all things artsy. Highly adept at creating entertaining scripts and well-versed in marketing.

Work Experience

Home Page for Blog Website , Fiverr

Jan 2024- Jan 2024

As a freelance web developer on Fiverr, I made crafting captivating and responsive home page for blog website. Here's an overview of my role and contributions:

- **Development Skills:** Using HTML, CSS, and JavaScript, I transformed the design concept into fully functional home page. Employing responsive design principles and grid systems, I ensured seamless adaptability across various devices and screen sizes.
- **Content Organization:** Employing a structured grid system, I effectively organized and presented different sections of the home page.
- **Testing and Optimization**

Hosting Web Site, Fiverr

Oct 2023 - Nov 2023

As a freelance web developer at Fiverr, I developed a comprehensive hosting website consisting of seven distinct pages.

overview of my role and contributions:

- **Design Conceptualization:** Leveraged my friend's design experience to conceptualize the overall visual identity and user experience of the Hosting Website. Employed modern design principles, including color theory, and layout composition, to create a cohesive and visually appealing interface across all seven pages.
- **HTML/CSS/JS Implementation:** Utilized a combination of HTML, CSS, and JavaScript to bring the design concepts to life. Employed responsive design techniques and grid systems to ensure that each page of the Hosting Website seamlessly adapts to various screen sizes and devices.
- **Swiper.js Integration:** Integrated the Swiper.js library to incorporate interactive slider into the Website. Leveraged this feature to showcase hosting plans, featured services, and other key content in an engaging and dynamic manner.
- **Multi-Page Development:** Designed and developed seven unique pages for the Hosting Website, each serving a distinct purpose and contributing to the overall user journey and conversion funnel. These pages included:
 - Home Page
 - VPS Hosting
 - Web Hosting
 - Dedicated Hosting
 - About
 - Legal
 - Partners
- **Testing and Optimization:** Conducted rigorous testing of each page to ensure cross-browser compatibility, accessibility, and optimal performance.

Slider Gallery Section, Fiverr

Oct 2023 - Oct 2023

As a freelance web developer on Fiverr, I created a gallery section for a client. My responsibilities included:

- **Client Consultation:** Engaging with clients to understand their specific requirements for the Gallery section, including the type of content to be displayed and the desired layout and functionality.
- **Design Conceptualization:** Creating design concepts and mockups for the Gallery section based on the client's preferences and the overall theme of the website.
- **HTML/CSS/JS Implementation:** Translating approved design concepts into responsive HTML and CSS code, ensuring compatibility across different devices and browsers.
- **Testing and Optimization:** Conducting thorough testing to ensure seamless functionality and optimal performance of the Gallery section, troubleshooting any issues that may arise.
- **Libraries:** Swiper js

Skills Utilized:

- Proficiency in HTML5 and CSS3 for frontend development.
- Experience with responsive web design principles and techniques.

Apartment Rental Page, Eng/ Ahmed Essam, Fiverr

Aug 2023 - Aug 2023

As a freelance web developer on Fiverr, I created dynamic and responsive apartment rental pages for a client. Below is an overview of my role and contributions:

- **Design Conceptualization:** Collaborate with the client to conceptualize the design and layout of the apartment rental page, ensuring it aligns with their brand and target audience preferences.
- **HTML/CSS/JS Implementation:** Utilizing HTML, CSS, and JavaScript to develop a visually appealing and interactive this page. Integration of the Swiper.js library to create slider for showcasing property images and details.
- **Responsive Design:** Implementing responsive web design principles to ensure the page works seamlessly across various devices and screen sizes, providing an optimal viewing experience for both desktop and mobile users.
- **Testing and Optimization:** Conducting thorough testing to identify and fix any bugs or issues, optimizing the performance and usability of the page to deliver a smooth and efficient user experience.

Skills Utilized:

- Proficiency in HTML5, CSS3, and JavaScript for frontend development.
- Knowledge of JavaScript libraries such as Swiper.js for creating interactive slider
- problem-solving skills and attention to detail to deliver high-quality solutions within specified timelines.
